# Steampunk Animals Coloring Book (Adult Coloring)

Synopsis

Steampunk styles go wild! The imaginative lure of steampunk fashion extends to the animal kingdom with these fantastic designs. Thirty full-page illustrations combine naturalistic settings with creatures resplendent in full steampunk regalia. Images include an owl, monkey, snake, tiger, rooster, and a variety of other animals sporting armor, smokestacks, wheels, wind-up keys, metallic wings, and other mechanical accessories.

Customer Reviews

This is my second coloring book by Jeremy Elder. My previous one was also a steampunk inspired book, œSteampunk Devices •. There are many animals in the book including: snail, rabbit, owl, turtle, monkey, walrus and many more. Thanks to another reviewer who pointed out my video is missing the design for the tiger on the back of the book. My pages were stuck together so I will show those two images (tiger and a snake) in the photos below.The designs in the book and imaginative and are lots of fun to color. The animals are set in backgrounds rather than simply an animals on a page. Each of the animals has machinery built-in which is a must for a steampunk fan.The designs are detailed but are not intricate and hard to color. There is plenty of room for blending or adding your own details to make the coloring project a more personalized one.My earlier

book by Mr. Elder was released under the Creative Haven line of Dover books and I wish that this one, â œSteampunk Animalsâ • had also been so released. Unfortunately, it was released as a standard Dover Coloring book. The difference is distinctive as this book is printed on both sides of the page, has a slightly different feel to the paper, and is not perforated.However, the price is also less than a Creative Haven book, so I can and will buy a second copy of this book as I will want to use markers on the pages. If you use only colored pencils, you may be happy with just the one book as-is.This is what I experienced while coloring in this book and testing it with my coloring medium. I will list my coloring mediums that I use for testing and coloring in the comments section below.
