Customer Reviews

This book has a lot of good hits. I purchased this for a teenage boy and he likes it. The only issue was that I searched for an easy guitar book and this isn't easy so buy this for intermediate players only.

I did read the reviews on here before getting this but I figured the songs on here would sound more similar to the actual songs... I was kinda looking for actual piano parts, but I guess this one is not the one to get if you want that.

Just difficult enough to sound complex, but is easy enough to sight read if you are experienced.

One of the best groups of music put together. If you love the "hits" of 2014 this book is for you. Had

songs I totally forgot I love. I was only searching for a book that had two songs particularly. Found this steal of GREAT SONGS! The book was just a tad beat up, but other then that, if you get it new, it wouldn't be so much (mine was new but from a store).

We ordered the "easy" version before and that was too easy. This is just right for a more advanced piano player.

A nice selection of music. My daughter loves the choices. I only gave 3 stars because like most rock/pop music I wish the rhtym and accompaianment were separate from the vocal/melody.

I'm loving this book already, it isn't for me but I'm ready to hear my brother show his talents with his guitar learning these songs.

My daughter requested this for her piano lessons. Great songs in the book.
