This book is dedicated to the sexy men featured in romance novels and the silly pick-up lines we've all probably heard or, at the very least, imagine some guys must use. The book features 31 illustrations, and accompanying each hot and steamy man is a line you may imagine him saying. There's a rockstar whose line is "I'd love to strum your g-string". A fireman teases, "Wanna slide down my pole?" A pirate asks, "Arrrrr....ya free Saturday?" And a cowboy asks, "Wanna watch me unload my six shooter?" It's a fun book! The paper is light to medium weight and images are on one side of page only. I was inspired to dig out my Crayola Twistables colored pencils and they glided across the page. Markers will bleed through, so put a blank sheet behind the image. The pages are not perforated but images stop before the spine so you can cut or tear out your work. My one pic is the drawing style. The images are that sort of outline, freestyle flow that are much better for colored pencils and shading, than for markers when you don't want to blend much, and need to have closed off lines so you know where one color can end and the next begins. (That's why I broke out the

colored pencils and practiced some of my blending skills.)Color a page and post it at your friend's desk at work. Anyone who reads romances will enjoy this book. And also anyone who likes a sexy hunk and a few corny pickup lines should have fun coloring within, or outside, the lines. This book would also be a fun bridal shower gift, or for ladies' night when you break out the wine and coloring books.

While I've never reviewed a coloring book before it seems appropriate given it's national coloring book day and well lets face it, this one is just yummy without being hard on the waist line. It's also the perfect time to pick it up since all the coloring pencils, crayons, markers, etc are on sale with the kiddos getting ready to go back to school. However I'm not sure I would be sharing this with them. They say coloring is a good stress relief and I would agree esp when you can color these hotties and start dreaming! Pick this one up as a treat, just for you.

Very well drawn and the pickup lines are so wonderfully bad. Much better to color than many of the other books, the artist has done a great job in creating this book

Pictures are poorly drawn. Not drawn at all like the cover image. Very corny, somewhat humorous pick up lines.
