I enjoy the combination of architecture & cityscapes. It allows me to be a little more conservative in my color schemes or run wide with my imagination, I love the designs; they range from easy to color

to very intricate. One problem I have with this book is that it only contain 45 Cities to color, I wish there were more.

I LOVE this book- Omg. These amazing cities drawings are so wonderful! They are detailed, but not so busy that I won't finish a picture. The cities are imaginative and original. The paper quality is superb, and I love that they are printed on one page, make it easy to use my colored pencil and markers, and also makes a good work of Art. I am so excited to color them all and hope there will be many more of these books come.

Very disappointed with the drawings. So many black lines makes coloring almost impossible and some of the drawings are so distorted it is frustrating to even figure out what they are of. Would not recommend.

Very excited to receive but highly disappointed upon receipt.....repetitive and non-inspired. It had the potential to be so much more. And this comes from an interior designer who owns several of these series of coloring books. I love them....this just drops the ball.

I am very disappointed in your coloring book AMAZING CITIES. My first book was MANDALAS by Dover. I loved it and have nearly colored every page. Then I purchased your book and TROPICAL PARADISE SCENES by Dover. The paper in your book is cheap and of poor quality. I use water colors and the pages wrinkle. The paint bleeds thru so I learnt to put a plain page underneath. I have completed some - Palermo, Venice and Sospel but some drawings are poor. Big black lines on half a page. The worst are Jerusalem. Vietnam and Chiang Mai. I guess you used a different artist. You can buy finished pictures in oil which are copies of famous artists on the streets of Vietnam for \$10:00! I will stick to Dover books in future unless you improve the quality of your paper and drawings. I wasted my money on yours. Robin Ingram Raleigh, North Carolina, USA

The pages are poor quality. Some are grey with lines, some are fuzzy and spotted like they have been through a copy machine to many times. The drawings themselves are lovely but do not work for coloring. Look back at the cover. If you have some artistic ability and are looking for something without cohesive, connected lines, then this is for you. If you are looking just to color for meditation purposes, then look elsewhere.

today i received this coloring book and was so dissappointed.the graphics are so close to the binding it will be very hard to color,also the pages are not perforated and why do some of the pages look like they had been photocopied terribly.I also tried to send an email but it bounced back
hhmmmm

Bad quality paper, the pictures inside the book were very blur. Do not recommend !!
