Customer Reviews

I haven't actually bought this book and I'm not going to, because you can't seem to give us some idea of what we would be buying. In the "Look Inside" feature, can't you show us just ONE page from the actual book!? All there is for this author's books (and many others on this website) are the front cover, back cover and introduction. This is SO frustrating! Please! Show at least one page of the content!

Let me say, firstly, that I have purchased many coloring books from , and , overall, they are of very high quality. This one, however, is of such poor quality that I can barely make out the pictures. It reminds me of copies from an old Xerox that needs toner. So poor quality that I can't color it. It actually hurts my eyes to look at it. I am so disappointed, too, because the scenes are probably beautiful. I would have loved to color these pictures.

Terrible book. Blank spaces where there should be something. Each page looks like a xerox copy running out of toner.

Don't buy these, they are just photo copies!

there is so much shading it is impossible to really have anything to color. This was poorly thought out, not worth the money

I really have no words for this wonder. The pics are all very faint, and grayscaled....there is nothing to really color, and if you were brave enough to attempt to do so, the results would be horrible. The pictures themselves are faint and many are blurred beyond recognition. What a shame, because I was really looking forward to coloring landscapes.

Bought this for my wife who loves paint by numbers but needed something with easier cleanup..hence coloring books. This book requires someone who is very skilled at art to complete. You can't even tell what the pictures are on the pages, a non-artistic person looking to color will be

completely lost. We donated this immediately.

the scenes are so lightly drawn it is difficult to see the lines let alone the picture. I like the concept but this book is not good
