Customer Reviews

This book is full of delightful, enchanting, fanciful, illustrations, and every single unique amazing picture will captivate you. But there is even more, the book is Â inch thick with a total of 80 coloring pages and the back of each page is left blank. I was captivated as I looked through this charming book the first time. Every time I turned the page, the next picture surprised me and by the end of the book I was totally astonished. Imagine that somebody took the very best pictures out of 80 coloring books and published them in just one book. This book is like that. Every illustration is outstanding with the art style, amount of details, and complexity different and unique with each illustration. This would make a WOW gift for any school aged child and every adult that likes to color. 1. 80 unique and beautiful illustrations printed one per page (the back of each page is blank)

printed on medium weight, bright white paper,2. The book is 8 inchesÃ x 10 1/8 inchesÃ .3. The texture of the paper is extra nice for coloring. I tried colored pencils, both Prisma and Crayola, Gel pens, plus some markers and I was surprised at how easily, smoothly, and brilliantly the colors transferred to the page. This book is a joy to color.4. Hidden throughout the book, in every illustration are 1 to 8 different scavenger hunt items, some in plain sight, and others hidden? When you think you have found all of the items in a particular illustration, turn the page to reveal a list for that illustration.Cons:1. The paper is only medium weight , so check your gel pens and markers they might bleed through, if they do use a scrap sheet of paper under the page you are coloring and don't remove it until the page is completely dry.
