Customer Reviews

You must be dedicated to your continued improvement in playing skills past the intermediate stage to conquer this book. It is a great piece of continued guidance, especially if you have a good, well trained and experienced professional to help get you through it. Remember, "Practice makes perfect".

I used to play the Rubank Advanced Method Book 1 duets when I was a kid. SO I bought the book for my own two boys, a 5th grade beginner/intermediate trumpeter and a 3rd grade trombonist. They

were surprisingly open to baroque/classical music, which they had had very little exposure to prior to this. It is a joy to hear them hum one of these melodies absent-mindedly in some off moment.

Rubank is a must have for any serious student learning the finer points of classical music. The methodology offers a solid base for anyone (or any age) to quickly learn the basics of the instrument.

The book was a NEW edition. However, these types of technical study books rarely ever change the compositions--just the covers. It was in very good condition.

This is a great book for more intermediate to beginning advanced players. Has tons of fun and challenging music to play.
