Customer Reviews

No doubt about it, Mark Amundson is an audio god among us mere mortals, I just can't help feeling that a lot of this material has been re-hashed from his FOH articles, and he could have given us who are so hungry for his knowledge and insight a fresher bit of info to pull from. Albeit, he does 'fess up to this at the beginning of the book--you just have to buy it first! None the less, it is an excellent refresher and a must-read for newbies, so over all it doesn't disappoint. I'm a 15+ year audio vet, 9 with IATSE and I certainly won't be asking for a return.
