Customer Reviews

I bought this book on the day it came out, after waiting for the release for months. Ed Sheeran is my favorite music artist and I couldn't pass up the opportunity to learn more about him. The book grabbed my attention super quickly, and I was finished with it the day after I got it. It wasn't necessarily a very easy read, Ed kept the story at a steady pace. The book was very inspiring, and I learned a lot from it. Even if you don't enjoy Ed as an artist, his story is a very riveting one. It talks about his early interest and how he got his start in the music industry. Though he changes subject a lot, it's never hard to follow. I think everyone on the planet should read this, no question. If the book wasn't 20 dollars, I'd be passing out

copies to everyone I know. From 8 to 80, Ed's story is one that will interest and inspire you. If you don't have a copy yet, I suggest you buy yourself 8 copies. Ed as a character is smart and very interesting. He is a very smart and charismatic young man, who was extremely determined. Everything Ed did from around 13 and up was all for his music and I admire that greatly.

My 16 year old daughter is one of Ed's biggest fans for years. She was so excited to receive this book I can't even begin to tell you. The pictures in the book are beautiful and the story is wonderful of Ed's journey. Obviously, anyone interested in buying this book loves Ed Sheeran! Great present for anyone who loves Ed!

A great read, though nothing new to be learned....Artworks included are fantastic! Recommended to anyone and everyone for sure!

Such a great book! I love Ed and this is great -- even if you know lots about him, coz there's plenty of new information in it. The lovely artwork alone is reason enough to buy it. I page through it all the time. :)

An excellent read into the young Ed Sheeran's life and musical beginnings! You really get the sense of his struggles he faced on the way to fame and beautiful pictures from Phillip Butah =) I would recommend getting this if you're a fan and want to learn about Ed's beginnings and life philosophy! Nicely written by Ed himself!

My friends are OBSESSED with Ed Sheeran and photography, so I figured this would hit the jackpot. And it did. I would get pictures from them of certain things while they were reading it and they kept on gushing about it. Must have for any Ed Sheeran fan.

I bought this for my teenage daughter who doesn't like to read. She LOVED it and read it from cover to cover. She still looks through the pictures from time to time. It is a well written biography with a nice mix of photos and type.

I bought this for my girlfriend, I didn't actually read it because I'm not an Ed Sheeran fan but I have to admit the artwork in the book is very good, also the book's hardcover looks very nice, I'm sure a

fan should enjoy this book.
