This is a book of gorgeous designs by Alphonse Mucha which have been rendered into coloring book form by Ed Sibbett, Jr. The book includes many of my most favorite Mucha designs and it will be a real joy to color them. While this is the first time Creative Haven has published this work in their colorist friendly format, Dover has previously published this book as "Art Nouveau Figurative Designs" which is now out of print. That book contained six additional designs which are not include in this book. As the standard format for Creative Haven is 31 designs, that may be why there are less. I purchased this book and the one by Pomegranate at the same time. While they share some of the basic designs, the rendering is quite different. Also, Creative Haven has 31 designs

while Pomegranate has 22. I like each for different reasons and will be really happy to be able to color the designs of one of my favorite artists. All of my gel pens and markers bleed through on Creative Haven books to varying degrees. I use chip board, cardstock, or even freezer paper in between the sheets (if I am keeping it in the book) or under the page if I remove it from the book. There are 31 designs in this coloring book which are printed on bright white perforated paper that is a fairly heavy stock. The designs are printed on one side of the page only and the binding is glued rather than sewn. I usually like to remove my projects from the books to work on and I love that Creative Haven always makes it easy for me to do so.

this coloring book for relaxation is great! I have always loved Alphonse Mucha and the designs are very lovely. I have been giving them to friends but this one is a keeper. I recommend the Erte coloring book as equal if not more interesting. I have a signed plate of his and I love his designs so being able to choose my own colors.

I have many coloring books, and my favorites are Creative Haven because they're printed on one side only and perforated for easy removal. But this book goes above and beyond. I've been a fan of Mucha for many years, and was thrilled to see this book- it came today and I am NOT disappointed. If you like Mucha and you like to color, you will love this book.

I love this coloring book! The paper is thick and perforated for tearing. I have been buying Dover coloring books since I was a youngster (over 30 years) and the quality has not gone away. The Creative Haven series from Dover are fantastic books, great for all types of media.

I have always loved art nouveau, and Mucha in particular. The designs provided in this coloring book are perfect for me. I like that each page is single sided and perforated, and the title is listed near the spine, on the opposite side of the perforations. This allowed me to google the original work and get an idea of the color palette. I'm really enjoying this book. I highly recommend it.

This is a beautifully illustrated coloring book. Each image is worthy of being framed. I have used colored pencils, crayons and markers. Each work well. I would suggest that you place a piece of cardboard or paper under the image when using markers because of bleed through.

Just like other creative Haven books it's* Single sided* Microporforated.* These designs are

gorgeous and fun to color, If you are looking for a book where you can color people AND flowers Here it is!!very fun book, Quality paper!

I definitely think art nouveau is my favorite style of art. The pages are perforated so you can easily tear the pages out to color or scan. They're heavier weight than some of the other coloring books I've purchased. I used markers and there wasn't really any bleed through, but I'd either take the page out or place other pages underneath just in case. I've used water to help blend my colors and the paper held up extremely well. It didn't crinkle up or anything when it dried either. Definitely worth more than the price!
