## Customer Reviews

This is a very high-quality coloring book for grownups. The book provides plenty of variety, and all of the designs are very detailed. This is a great way to chill out. Of course, these designs could also provide inspiration for actual quilts for those who are so inclined.

A great stress relieving activity! The graphics are whimsical and intricate. I love the variety and the great use of patterns! Highly recommended!

Great book. Has 2 pages of each quilt so you can try out different color ideas. Love it. Would recommend to others.

Our artistically inclined girl liked this coloring book fairly well. It was not her favorite but she did like it. Her complaint was that the quilts looked too much alike. The pictures she has colored are beautiful and outstanding, I think. If you are a person who enjoys coloring and/or quilts, I think you would enjoy this coloring book. You might even recognize some of the quilt patterns. I did even though I am not a quilter. Possibly a quilt artist might be able to copy these patterns to make your own quilt.

Beautifully designed. Relaxation at it's best!

Coloring and quilting what's not to love! Helps me see color balance before sewing...got here fast too!

I bought this as a Christmas gift for my mom. She loved it. She's a quilter and it has the old time quilt patterns in it.

Have fun designing a quilt in the comfort of your favorite chair!
