Creative Haven Insanely Intricate Shall We Dance? Coloring Book (Adult Coloring)

Synopsis

No need for grueling rehearsals or complicated choreography • with just a box of colored pens or pencils, colorists can bring these dances to life. Thirty-one outrageously patterned scenes spotlight ballet, ballroom, jitterbug, jazz, and many other styles. Pages are perforated and printed on one side only for easy removal and display. Specially designed for experienced colorists, *Insanely Intricate Shall We Dance?* and other Creative Haven® adult coloring books offer an escape to a world of inspiration and artistic fulfillment. Each title is also an effective and fun-filled way to relax and reduce stress.

Customer Reviews

I have a couple of coloring books which include dance scenes in them so I thought I would enjoy this book. I also like intricate designs so I was not concerned about small elements and tiny spots to color. What I wasn't prepared for was just how busy this coloring book would be in reality. Every portion of the design, except for any part of a person where flesh is showing (e.g., face, arm, hands, legs) is filled with either ovals or triangles. It is so busy that it is difficult to figure out where something starts and something else begins. The lines that are outlines are somewhat bolder than the doodle designs but I still found it difficult to decipher initially. Once I got into coloring the design, I was able to figure things out. In addition to the multitude of doodles, there are little bits and pieces of surprise elements hidden in the designs. That made it a bit more fun but not as much as many of my other coloring books. What I really liked about the coloring book was the diversity of dances that are

shown in it. There are modern dance, ball room dance, street dance, and many types of cultural dances as well. This is what I experienced while coloring in this book and testing my coloring medium on the paper. In the comments section below, I will list the coloring medium I used to test this book and which I use for coloring most of my projects.
